## SUMMARY

I am a dedicated Front-End Developer with a strong focus on building responsive and user-centric websites. I create seamless interfaces that prioritize both performance and design. I have a deep passion for solving complex problems and ensuring that every project I work on is optimized for usability and accessibility. My goal is always to deliver high-quality, efficient, and scalable code that enhances the user experience and meets business objectives.

## PROFESSIONAL EXPERIENCE

---

### PT Cross Network Indonesia

Surabaya

Front-End Web Developer Internship

July, 2023 – December, 2023

- Designed and developed intuitive UI/UX for websites and implemented the design with Tailwind CSS.
- Develop functional websites with HTML and Javascript in collaboration with fellow programmers to provide a seamless user experience.

## PROJECT

---

### JC. - Personal Website

November, 2024 – November 2024

This platform highlights my skills and showcases the projects I've developed. Built with React and TypeScript, the website utilizes Tailwind CSS to deliver a seamless and responsive user experience.

### Helpdesk for Services at ELTC Unit of Petra Christian University

April, 2024 – June 2024

This platform is designed to facilitate the management of complaints, classroom bookings, and other services for the Excellence in Learning and Teaching Center unit at Petra Christian University. Each service operates through a ticketing system, ensuring more structured and efficient management, and it's developed with Laravel, PHP, and JavaScript, blending Bootstrap and CSS to create a seamless and dynamic user experience.

## EDUCATION

---
